Dr. Antoine STIER

Research Fellow, LEHNA, Université Lyon 1, Lyon, France

Adjunct Professor of Physiological Ecology, University of Turku, Turku, Finland

https://antoinestier.wixsite.com/ageingecophysiology

Nationality: French - Age: 34

Scientific interests

My research is at the crossroad between physiology, ecology and gerontology. I am broadly interested in understanding the impact of environmental conditions on physiological mechanisms contributing to the ageing process, and how such processes shape organism's phenotype from the conception to the death. My research focus on the contribution of mitochondrial function, oxidative stress, stress hormones and telomere dynamics as proximate mechanisms shaping health, ageing and life histories. I use mainly bird species as models, both in captivity and in their natural environment.

Educational background

2021	**Docent in Physiological Ecology – University of Turku**
2013	**PhD in Ecophysiology** with honours **- University of Strasbourg**
2008-2010	**MSc degree in Ecophysiology & Ethology** with honours **- University of Strasbourg**
2005-2008	**BSc degree in Cellular Biology and Physiology** with honours **- University of Strasbourg**

Scientific experiences

09/**2021**-08/**2023**	**Marie Curie Research Fellow (Université Lyon 1, France) –** exhibiting contrasted natural resistance to stress'
10/**2020**-08/**2021**	**TCSM Junior Group Leader (University of Turku, Finland) –** 'From mitochondrial function to Darwinian's fitness'
03/**2018**-09/**2020**	**TCSM Research Fellow (University of Turku, Finland) –** 'Genetic and environmental determinants of mitochondrial function and telomere length in wild bird species'
02/**2016**-02/**2018**	**Marie Curie Research Fellow (University of Glasgow, UK) –** An avian model for understanding and preventing the negative effects of stressful developmental conditions on subsequent health state, fertility and ageing rate
09/**2014**-09/**2015**	**Research & Teaching assistant (University of Angers, France) –** Linking environmental constraints to stress physiology and ageing rate in ectotherms
03/**2014**-08/**2014**	**Research assistant (Universities of Strasbourg, Aberdeen and Glasgow) –** short-term contracts to conduct field and laboratory work on the physiological ecology of ageing
10/**2013**-03/**2014**	**Research assistant (French Polar Institute IPEV, France) –** Relationships between mitochondrial function, stress physiology and life history traits in the king penguin
10/**2010**-09/**2013**	**PhD in Ecophysiology (University of Strasbourg, France) -** "Oxidative stress, telomeres and mitochondrial uncoupling: key regulators of life history trade-offs?"

Teaching & supervision of students

2021-2025	**PhD co-supervision of Yishu Zhu** (University of Uppsala)
2021	**Supervision of two MSc student project** (University of Turku & Lyon)
2020	**Guest lectures in Environmental Physiology** (MSc, University of Turku, Finland)
2020-2023	**PhD co-supervision of Nina Cossin-Sevrin** (University of Turku)
2020	**Supervision of three MSc student project** (University of Turku, Finland)
2019	**Supervision of Coline Marciau** (Pre-PhD funding, University of Turku)
2019	**Supervision of two MSc student projects** (University of Turku, Finland)
2017-2021	**PhD co-supervision of Tiia Kärkkäinen** (University of Turku)
2018	**Co-supervision of two BSc student projects** (University of Turku, Finland)
2017	**Guest lecture in Animal Physiology** (3rd BSc year, University of Glasgow, UK)
2016	**Supervision of two MSc and one BSc student projects** (University of Glasgow, UK)
2015	**Courses in Zoology, Ecology and Behavioural Ecology and** (100 contact hours: 1st BSc year, 2nd BSc year, 1st MSc year, University of Angers, France)
2015	**Supervision of two MSc student projects** (University of Angers, France)
2015	**Supervision of one PhD chapter** (Universities of Angers and Toulon, France)
2014	**Courses in Zoology and Applied Ecology** (90 contact hours: 1st BSc & MSc years, University of Angers)
2013	**Practical course of Ecology and Lecture in Biodiversity** (30 contact hours: 2nd BSc year, 2nd MSc year, University of Strasbourg, France)
2012	**Courses in Zoology and Behavioural Ecology** (60 contact hours: 1st BSc & MSc years, University of Strasbourg, France)
2012	**Supervision of three MSc student projects** (University of Strasbourg, France)
2011	**Courses in Behavioural Ecology** (40 contact hours: 1st and 2nd MSc years, University of Strasbourg)
2011	**Supervision of two MSc student projects** (University of Strasbourg, France)
2010	**Courses in Zoology and Ethology** (60 contact hours: 1st and 2nd BSc years, University of Strasbourg)

Other academic achievements

Organisation of conference:
Organiser of the *Evolutionary Ecology of Ageing* symposium at the *IOC* meeting (South Africa - 2022)
Organiser of the *Evolutionary Ecology of Ageing* symposium at the *ESEB* meeting (Finland - 2019)
Organiser of the *Oxidative Stress* session at the *International conference on telomere dynamics* (UK - 2017)
President of the organising committee for the 9th *Ecology and Behaviour International Meeting* (France - 2013)

Invited seminars: University of Neuchâtel (Switzerland - 2016), Monash University (Australia - 2017), University of Glasgow (UK - 2019) & Deakin University (Australia - 2019), EOU (Germany – 2022)

Organisation of weekly institute seminars: IBAHCM Glasgow (2016-17) - IPHC Strasbourg (2010-13)

Reviewing for international journals: 44 articles reviewed since 2013 (see https://publons.com/a/1216198)

Awards and Grants (≈2.15M€)

2021-25	**Swedish Research Council, Partner Investigator** (320 k€)
2021-23	**European Union *H2020* grant** (185 k€)
2021-24	**French Polar Institute Standard Grant, co-PI** (450 k€)
2021-22	**Turku University Foundation Research Grant, PI** (10 k€)
2020	**Turku Collegium for Science and Medicine (TCSM)** (300 k€)

2018-21	**Turku Collegium for Science and Medicine (TCSM) Fellowship** (120 k€)
2018-21	**Australian Research Council Discovery Grant, Partner Investigator** (608 kAU$)
2017-20	**French Polar Institute Standard Grant, Partner Investigator** (438 k€)
2016-18	**Marie Curie Postdoctoral Individual Fellowship** (183 k€)
2010-13	**PhD grant from the French Minister of Research** (70 k€)

Main collaborations

French Polar Programs #119 & #131: *Determinants of individual quality in wild king penguins: from behaviour to the mitochondria (Dr. Jean-Patrice Robin, Dr. Vincent Viblanc & Dr. Damien Roussel)*

Prof Anna Qvarnström (University of Uppsala, Sweden): *Speciation in action: divergent climate adaptation and genome clashes in hybrids*

Dr. Pierre Bize (University of Aberdeen, UK): *Mitochondrial role in shaping avian life histories*

Dr. Suvi Ruuskanen (University of Turku, Finland): *Prenatal thyroid hormones, mitochondrial function and telomeres*

Dr. Paul Sunnucks (University of Monash, Australia): *Links between mitochondrial DNA polymorphism, mitochondrial function and fitness in the wild: the case-study of Eastern-Yellow Robins*

Profs. Pat Monaghan & Neil Metcalfe (University of Glasgow, UK): On the importance of prenatal environmental conditions in determining postnatal telomere dynamics and mitochondrial function

European COST Action CA15203 *MITOEAGLE*: *Mitochondrial mapping: Evolution – Age – Gender – Lifestyle – Environment. Participation in working group 4 "blood and cultured cells"*

Dr. Barbara Tschirren (University of Exeter, UK): *Pre-natal environment influence on mitochondrial function, oxidative stress and telomere length: an experimental approach using selection lines in Japanese quails*

Dr. Stefania Casagrande (Max Planck Institute, Germany): Early-life stress exposure and *mitochondrial function in wild great tits*

Dr. Mark Haussmann (Bucknell University, USA): On the oxidative cost of acute stress exposure in avian models with contrasted natural resistance to stressors.

Prof. Toni Laaksonen (University of Turku, Finland): Interplays between environmental conditions and telomere dynamics in determining life-history trajectories of wild pied flycatchers

Scientific publications

43 published articles, Google Scholar (01/09/2021): 1400 citations, *h*-index = 21
